## Profile

Driven four years of experience in Web development including System Administration (Cloud computing) and has a passion for creating user-friendly websites. Seeking a challenging role where I can utilize and contribute my coding skills, creativity and problem-solving abilities to deliver web solutions that meet client needs. Quick learner, willing to learn new technologies and want to create happy working environment. Familiar with cloud technology such as AWS and Azure. Also skillful in linux.

- Hands on experience in designing and developing applications using laravel framework, laravel pusher, socket.io (realtime web socket), react-native and nestJS.
- Strong understanding and development experience with MVC framework.
- Experience in third party related API integration.
- Experienced with HTML, CSS3, JavaScript, jQuery, JSON, AJAX, Responsive web design, socket.io (web socket), nestJS, react-native and postman tool.
- Good understanding in software development cycle.
- Good communication and interpersonal skills.
- Also experienced with Jira (Agile Project development Management System).
- Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

## Employment History

### Web Developer, Metateam Myanmar Co.,Ltd

APRIL 2022 – PRESENT

Currently working as a Web Developer at Metateam Myanmar Co.,Ltd, where I am responsible for developing and maintaining web applications using JavaScript, Laravel, and React. Collaborate with a team of developers to create user-friendly and responsive websites. Implement bug fixes and improvements to enhance the performance and functionality of web applications. Utilize my problem-solving skills to identify and resolve issues in a timely manner. Stay updated with the latest web development technologies and trends to ensure the best practices are followed in my work.

### System Engineer, Asia Mega Link Co.,Ltd

OCTOBER 2019 – APRIL 2020

Worked as a System Engineer at Asia Mega Link Co.,Ltd, where I was responsible for managing and maintaining the company's IT infrastructure. Collaborated with cross-functional teams to ensure smooth operation of systems and networks. Troubleshoot and resolved technical issues to minimize downtime and ensure optimal performance. Assisted in the implementation of new technologies and systems to improve efficiency and productivity.

### System Administrator, Thitsa Works Co.,Ltd, Yangon

NOVEMBER 2018 – SEPTEMBER 2019

- Wrote scripts to automate server maintenance tasks and reduce manual workload.
- Monitored system performance and identified and resolved performance issues, improvement in overall system performance.
